Subject: [Staffcfr] FW: Welcome Fernando Resende

Dear All

Fernando Resende has accepted our offer to be Assistant Professor, tenure track. He will join the Bioresource Science and Engineering Program. His arrival this fall will come at a perfect time as the new BSE program, and associated curriculum, enter its second year on a platform of both great expectations as well as potentially incredible support. His research will focus on mechanical and chemical techniques to catalyze the conversion of biomass to biofuels. Dr. Resende has a Bachelor of Science in Chemical Engineering from the State University of Campinas in Brazil, his native country. He received a Master of Science in 2003 from the State University of Campinas in Mechanical Engineering and another Master of Science in Chemical Engineering from the University of Michigan in 2008. He received his Ph.D. in Chemical Engineering in 2009 from the University of Michigan. He has done postdoctoral work at Purdue University and South Dakota State University, where he is working presently. His office and laboratory will be in Bloedel Hall. Please join me in welcoming him to the faculty of the School of Forest Resources.

Tom
Thomas Hinckley
Interim Director School of Forest Resources
David RM Scott Professor of Forestry
