**Celebrating the "International Year of Forests 2011"**

*"If I Could Change the World: Forestry and Environmental Issues in South Sudan, Africa; Asia; and South America."*

Jeannette Gurung ('85) is a forester and gender and development expert who has focused on leading organizational change for gender equality within agriculture and natural resource management organizations in Asia and Africa. She is founder and executive director of WOCAN, Women Organizing for Change in Agriculture and Natural Resource Management. Kamoji Wachiira ('69) has over 25 years of experience in international development in Africa, South Asia, and the Caribbean as a senior specialist for the Canadian International Development Agency and a consultant on environmental and natural resource management. Mark Wishnie ('98) is a founding partner and managing director of Equator, LLC, an integrated environmental commodity and timberland management company based in New York City and São Paulo, Brazil.

Program moderated by Affiliate Professor Mack Hogans ('76).
