The Western Research Committee of AF&PA's Forest Science and Technology Committee, in conjunction with a number of western universities and the USFS PNW Research Station is holding a forum on cooperative research targeted at intensive forestry. Your attendance and input is critical to the success of the forum.

You can get more information, including a draft agenda and a registration form at: http://www.westernforestry.org/afpa_industrial_research_forum.html

SMC TAC Winter Meeting. Dec. 18, 2001, Red Lion at the Quay, Vancouver, WA.

Continental Breakfast at 9:30, with the meeting starting at 10:00.

Contact for Registration Information: Megan O'Shea, Stand Management Cooperative, 206-543-9744. moshea@u.washington.edu.

Lecture: Starker Lecture Series: Visions of Natural Resources - Peeking into the Neighbor's Yard. November 8, 2001, 130 Peavy Hall, Corvallis; OSU Campus

Panel discussion by a group from Iisaak Forest Resources who were featured on Bill Moyers Reports "Earth on Edge."
Iisaak is a collaboration of one of Canada's largest timber companies, environmentalists and Canada's native people known as the First Nations.

Contact for Registration Information: 541-737-2034 Laurie.Brendle@orst.edu.

One of the goals of professional forest engineers is to provide the appropriate designs and engineering solutions that bridge the natural resources environment with society's needs and requirements. The theme for the symposium "2001 - a Forest Engineering Odyssey" reflects the origins of, and changes, forest engineering as a profession has undergone through time from its beginning in the late 19th and beginning 20th century to today.
